Map Date: June 2014

The figure is a map of the Iberian Peninsula, specifically focusing on Spain and Portugal. It displays the distribution of the 100 most common plant species. The map uses color coding to represent different habitat types or vegetation zones. Major cities are marked with dots and labeled, including Madrid, Barcelona, Valencia, Seville, and Lisbon. The map also shows regional boundaries and names. A legend in the bottom right corner provides a key for the symbols used on the map.
